ALL THAT JAZZ AT MU

By TAYLOR POLING
THE PARTHENON

Marshall University’s Jazz I band performed with special guest Earl MacDonald Wednesday. The concert had performances of MacDonald’s arrangements as well as MacDonald performing on the piano.

MacDonald has visited Marshall University’s campus twice, with the first time being when he taught at the Music Summer Jazz Camp, where MacDonald taught mostly high school students. MacDonald also had the opportunity to give piano lessons to a few Marshall music majors.

MacDonald described his first experience as “fantastic” and said his favorite part was being able to have a follow up experience. MacDonald’s experience as a music professor was “Deedle’s Blues,” “Sordid Sort of Incident” as “fantastic” and said his favorite MacDonald pieces performed were “Deedle’s Blues,” “Turdal Sort of Folks,” “Widdly ’n You,” “Joshua,” “Bad Dream” and “Fryker Night at the Gallows Club.”

Although donations have not been accepted in the past, the music department is now accepting donations to support the program. The MacDonald pieces performed were from MacDonald’s latest album, which was recorded by New York professionals.

Sesame Street Live came to the Big Sandy Superstore Arena Wednesday as Elmo and company showed toddlers and parents the importance of friendships in its live performance “Make a New Friend.”

The rainy morning did not dampen the children’s spirits. One little boy could not stand still long enough for his mother to take his picture. The boy was happily pointing to the stage where Elmo and friends would soon appear.

Learning Tree Preschool in Huntington brought its students to the show on a field trip. They are very excited for this year’s lineup,” Marketing Director for the Marshall Artists Series Angela Jones said.

This is the first time Jeselnik has ever been to Huntington, but said he is familiar with the area.

“I grew up in Pittsburgh, so I’m familiar with West Virginia,” Jeselnik. “I have never been to Marshall University, but I am excited to visit.” Jeselnik said after he graduated from college, he did not know what he wanted to do next.

“I thought I wanted to be a comedian when I was in high school, but I am excited to visit.” Jeselnik. “I have never been to Marshall University, but I am excited to visit.” Jeselnik said after he graduated from college, he did not know what he wanted to do next.

West Virginia Makes
Second Annual
Be from October to May, the amount of people sick with the flu is highest usually from January to February.

“Anyone who lives in closed housing or anyone living in the dorms should have it because you are exposed to it easily from anyone you live with,” Dr. Joanna Weldon said. “So, anybody living in the dorms is at high risk for the flu.”

On average, 200,000 Americans are hospitalized because of flu complications each year.

The flu is an airborne illness that spreads by coughing, sneezing or even talking. Flu symptoms include a high fever, headache, sore muscles, runny nose, diarrhea and vomiting.

Matthew Prandoni can be contacted at prandoni@marshall.edu.

Second Annual West Virginia Makes Festival at Heritage Farm Museum

By KELLY LIVELY
THE PARTHENON
The second annual West Virginia Makes Festival will take place Friday from 9 a.m. to 3 p.m. at Heritage Farm Museum and Village to celebrate local creators of all ages.

“The festival aims to showcase both local artists and entrepreneurs, as well as inspire the community,” Friel said. “Just get up and enjoy the heritage here in Huntington. We’re having the Heritage Farm Museum and Village from West Virginia. Participants of the design challenge will include students, inventors, artists and hobbyists. The challenge will feature many different types of creations.”

“Our festival creates makers,” Robert C. Byrd Institute Director and CEO Charlotte Weber said. “It taps into the innovative community of entrepreneurs and inventors so they can interact with likeminded makers.”

Public information specialist at RC3 for Advanced Flexible Manufacturing Mike Frye has had a hand in creating the festival and bringing opportunities for the community to showcase their talents.

“It is a celebration of creativity in all forms. Participants will include people from all walks of life,” Frye said. “Putting together in one location and showing off innovative products, inventors and artistic creations of all sorts. This year we are having the Heritage Farm Museum and Village and the festival here in Huntington. We’re having the Heritage Farm Museum and Village and the festival here in Huntington.”

After Matt Daniel took over as head coach of the University of Central Arkansas’ women’s basketball team, his daily conversations with Tony Kemper, which fluctuated between basketball and philosophical matters, convinced Daniel to name Kemper his assistant coach.

After two successful seasons together at Central Arkansas, Daniel accepted the position as the women’s basketball head coach at Marshall University.

Daniel soon brought along Central Arkansas assistant Kemper to complete the transition of his former staff. As the 2013 season approaches, Kemper enters his fourth season with Daniel and the Herd.

“The sharing of staff’s vision for this level of play and see the potential in what Marshall can become on a national level in collegiate basketball,” Daniel said to Herd Zone.

Before he accepted Daniel’s offer to join his coaching staff, Kemper said the two had a strong connection.

“I played basketball in high school and college,” Kemper said. “I started playing on the team when I was six-years-old and played throughout high school.”

He played basketball in high school and college, Kemper said. “So, I went back and get my teaching certificate because I thought I wanted to coach in high school.”

During the 2003-04 season, Kemper led his Quivira Heights High School team in Buhston, Kansas to a No. 1 seed in the regional tournament as the head coach.

With previous experience leading a team, Kemper said he wants to eventually work his way into a head coaching position.

“I would like to be a head coach someday,” Kemper said. “I guess I’ve always thought I’d get the opportunity at some point in time. I’ve been patient, but I want to take a job for the right reasons.”

Despite his desire to regain a head coach position at some point, he said he truly enjoys his current role with as a member of the Herd’s coaching staff.

“I think most people that coach eventually want to have the opportunity to see if they’re as smart as they think they are,” Kemper said.

Marshall University’s softball team wanted little time when asked to help out with a playground cleanup project last week at Enterprise Child Development Center.

Head coach Shonda Stanton and her team showed up with rakes and shovels to help with the initiative.

The team cleared and reorganized three outdoor storage sheds, divided playground equipment in age-appropriate sections, as well as other tasks.

The team also helped clean a corner section of the playground that will be used to house raised garden beds. Once the garden beds are finished it in a couple of hours. I can’t thank them enough,” Enterprise Director Jennifer Conkle said help.

“I really appreciate their hard work,” Conkle said. “That was a project we had been working on for a few weeks and had not been able to complete it. These girls pulled together and finished in a couple of hours. I can’t thank them enough.”

Marshall’s next game is an exhibition versus Charleston Southern University noon Sunday at Dot Hicks Softball Field in Huntington.

Imani Spradley can be contacted at spradley@marshall.edu.

Every day, in some form or another, something happens to us that has an impact on our ability to assert ourselves and understand our environment. Sometimes those things are positive, some of them not so much. For example, I was raised in an authoritarian household. I still don’t know how to say “no” to people who ask me to do things and it often ends up resulting in my being too accommodating. I don’t want people to think my kids are rad or funny, but I can’t help it. What’s your kids’ favorite thing? What’s theirs? I don’t know how to say “no” to people who ask me to do things and it often ends up resulting in my being too accommodating. I don’t want people to think my kids are rad or funny, but I can’t help it. What’s your kids’ favorite thing? What’s theirs? I don’t know how to say “no” to people who ask me to do things and it often ends up resulting in my being too accommodating. I don’t want people to think my kids are rad or funny, but I can’t help it. What’s your kids’ favorite thing? What’s theirs? A GLIMPSE INTO THE LIVES OF THE CITY'S STRANGERS

By EMILY RICE | THE PARTHENON

What was the happiest moment of your life?

When I got to go to Costa Rica and help feed homeless people. We fed people who wouldn’t have gotten food and hadn’t for about three days, and just the joy on their faces when we gave them the food was incredible. They didn’t understand how people who didn’t even know them could feed them.
